JOÃO TEIXEIRA

Cybersecurity

PROFILE

Since I was a kid, I always wanted to catch bad guys, but in a smart way! So cybersecurity was the deal. I'm a curious person with team spirit, open-minded and eager to learn, having several years of experience in programming and security gained through personal, academic, and company projects. Looking for a role where I can grow and continue to learn from experienced people.

EDUCATIONAL

NOVA College of Science and Technology
Master of Science in Computer Science.
- Attended from Sept. 2019 to Sept. 2021, specializing in computer network, cryptography, network security and distributed systems.

NOVA College of Science and Technology
Bachelor of Science in Computer Science.
- Attended from Sept. 2015 to April 2019.

SKILLS

Knowledge Areas
- Vulnerability Management.
- Risk Assessment.
- Application Security.

Programming/Web Development
